+91 89254 98316  
chennai, tamilnadu, 600041,  
India

Proficient in Python, Java, and C++, with strong foundations in data structures, algorithms, and software design.  
Experienced with Unix/Linux, Git, web/mobile development, and machine learning projects.

## Work Experience

### AI/ML Intern

Jun 2025 - Present

*Elevate labs | Bangalore*

- Built and trained machine learning models using scikit-learn, TensorFlow, or PyTorch to solve real-world problems
- Cleaned and analyzed datasets using Pandas, NumPy, and Matplotlib, improving model performance by 15–20%
- Developed classification and regression models, including Random Forests, SVM, and Neural Networks
- Participated in deployment of models using Flask, Streamlit, or FastAPI

### Associate Developer - INTERN

Mar 2025 - May 2025

*Infotact Solutions | Bangalore*

- Participated in the development of incident response strategies and documented response procedures
- Supported SOC (Security Operations Center) with monitoring suspicious activity and preparing reports
- Gained hands-on experience in tools such as Kali Linux, Splunk, and SIEM platforms
- Conducted internal audits

## Core Skills

**Programming Languages:** Python, Java, JavaScript, C , C++

**Data Structures and Algorithms:** Arrays, Dynamic Programming, Sorting/seraching

**Software Engineering:** Version Control(git), OOPS, SDLC, Agile, Testing Debugging, Data Security

**Databases:** MySQL, MongoDB, PostgreSQL

**Web Development :** HTML CSS REACT Node.js REST API ANDROID, Machine Leraning AI, Data Analysis

## Education

Sastra University Thanjavur

Aug 2023 - Present

Bachelor of Technology Computer Science Engineering with Artificial Intelligence and Data Science

GPA: 9.34

## Certificates

Training in Cybersecurity Infotact Solutions

May 2025
